Theme

Don't Fence Me In

The human yearning to be surrounded by nature translates to a proliferation of panoramic wallcoverings designed to bring the outdoors into both domestic and commercial spaces. Varied scenes allow rooms to be enveloped in any picturesque vista, ranging from lifelike renderings of the Savannah and hip, motion-blur woods to primordial forests and palm-laden tropical idylls. Designers are experimenting with top-down and bottom-up layouts, draping wisteria from the ceiling and planting meadows at the floor. Leaves continue to take real estate from florals with imaginative illustrations—both botanical papers and embroidery looks feel fresh.

SHADES OF HOSPITALITY

Palette

San Antonio Rose

- Pink fades to a warming neutral in this analogous palette.
- Dusty rose pairs with soft lavender-cast taupe and tawny sand to create soothing combinations.
- Easy and livable, these shades offer a pleasing alternative to all-neutral palettes.
